EDUCATION

Chaitanya Bharathi Institute of Technology

Hyderabad, Telangana

B.E. in Computer Science and Engineering (IoT, Cybersecurity & Blockchain)

2024 – 2027

- Relevant Coursework: Data Structures and Algorithms, OOP, DBMS, Web Technologies, IoT, Cybersecurity, Cryptography, Blockchain, Cloud Computing, Machine Learning, OS, CN

PROFESSIONAL EXPERIENCE

CBIT Open Source Community

Hyderabad, Telangana

Junior Developer

Dec 2024 – Present

- Led 10+ coding workshops and trained over 5000 students, showcasing leadership and boosting engagement by 70%
- Collaborated with cross-functional teams to build internal tools, review code, and support onboarding, strengthening teamwork and communication

National Small Industries Corporation (NSIC)

Hyderabad, Telangana

Data Science Intern

Dec 2023 – Jun 2024

- Built and deployed real-time analytics tools using Python and Java, reducing manual reporting time by 50% while managing tight project deadlines
- Presented live dashboards and visual insights to senior teams, refining communication and time management skills

PROJECTS

- **AI-Powered Traffic Optimization System** | *Flutter, Firebase, YOLOv8, OpenCV*
Built a real-time traffic control system that improved signal timing efficiency by 35%, prioritizing emergency routing
- **Briefly.ai – AI Video Summarizer** | *Django, Microsoft Azure, jsPDF*
Developed a Django app using Azure chatbot to auto-summarize videos with PDF export; creatively reduced review time by 60%
- **AlgoRhythm – Music Recommendation System** | *Python, scikit-learn, React*
Built a personalized engine using hybrid filtering; increased user engagement by 30% and session time by 25%
- **Cypher – Blockchain Certificate Platform** | *Node.js, React, Solidity, MetaMask, IPFS*
Built Cypher, a full-stack blockchain app for secure certificate issuance using Node.js, React, Ethereum, MetaMask, Ganache, and IPFS

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Web Technologies:** HTML5, CSS3, Node.js, Express, React, Django
- **Blockchain/Web3:** Ethereum, Smart Contracts, MetaMask, Ganache, Pinata/IPFS
- **ML/AI:** scikit-learn, YOLOv8, NumPy, Pandas, Matplotlib
- **Databases:** MySQL, MongoDB, Firebase
- **Developer Tools:** Git, VS Code

ACHIEVEMENTS

- **1st Place, VNR VJIET Hackathon 2025** – Recognized for designing a smart traffic optimization system using AI-based video analytics.
- **Runner-up, CBIT Hacktoberfest 2024** – Awarded for developing Briefly.ai in the innovation category and contributing to open-source.
- **Top 12 Finalist, HackIndia 2025** – Selected for Cypher, a secure blockchain-based platform for digital certificate issuance
